

## Technical Session Calls for Paper

We are looking for experience and expertise in the latest scientific and technological innovations in friction and sealing materials, components, systems and testing, if you want to show advancements and innovations opinions that meet the expectations of industry and the end user customers, please send us your paper, if your paper is adopted by the panel of experts of CFSMA, we will make an arrangement of a presentation at the technical session.

***Your paper need meet the following directions:***

1. Domestic and foreign friction and sealing material industry development trend and market prospect forecast;
2. New trends in the development of the automobile industry and corresponding strategies of the friction and sealing material industry;
3. The innovation and development, transformation and upgrading, new competition, new driving force and new development model of the industry as well as of the enterprises;
4. Discussion of leading by innovation, building a new development pattern, take the strength of new momentum, and stepping into a new track;
5. New technologies, new products, new processes, new materials, new equipment, new standards and other innovative achievements of friction and sealing materials;
6. Ways and means to enhance core competitiveness and participate in international competition in response to the current new situation;
7. Experience sharing of green manufacturing and energy conservation and emission reduction in friction and sealing material industry;
8. Automation, intelligence and digital promotion strategy and achievements of friction and sealing material industry;
9. Combined with the "Belt and Road" initiative, open up new ideas for the international development of friction and sealing material industry.

***Important Keys:***

1. CFSMA will edit and publish the "Proceedings" with the papers participating in the exchange, and the submitted papers should be sent to us in the version of Word or PDF, and confirm the receipt of the reply. The manuscript strives to be substantial, clear in theme, smooth in description, standardized in format, and free of typos; The text should be preceded by an "abstract" of 200 words or less. If the author does not agree with their paper appearing in the "Proceedings", please let us know.
2. If your paper is adopted by the panel of experts of CFSMA and incase we reach a consensus to arrange a presentation at the technical session, your paper should be transformed into Power Point slide version,which needs to be under 30 minutes(including the translation time).Because most of the attendees are Chinese,so it should be better to transfer your slide to a bilingual one and find a translator to help onsite.
3. In order to enhance the professionalism of the technical session and attract more and more domestic and foreign counterparts and experts to the session for exchanges, we will introduce the speakers the through the official website, conference journal, conference guide, X exhibition rack and other ways.So we need your personal electronic version of a color two-inch photo, personal profile of about 200 words.(If it bothers you please let us know,we will stop your introduction)
4. Contact: Shasha Jiang  
Tel: +86 10 8808 4366      Mobile:+86 15810100183(the same with Wechat)  
  
Paper collection Email: [cfsma17@126.com](mailto:cfsma17@126.com)
5. Deadlines:

Submission	Deadline	Note
Speaker's name	March 1 <sup>st</sup> ,2024	Speeches will not be scheduled after the deadline
Employer		
Presentation Title		
Paper Abstract	April 1 <sup>st</sup> ,2024	
Paper(Word or PDF version)	April 10 <sup>th</sup> ,2024	
Presentation Slide(Power Point version)		
Electronic photo of Speaker
